

Front End UX Development

Give B2B users the best possible experience with high-quality front-end development

To give users an exceptional experience, your software must be developed to function as intended in its design. We collaborate with your dev team and provide the front-end development service for your product.

THIS SERVICE HELPS TO...

Deliver high-quality, robust front-end software code

Assure that the UI UX design will be implemented as intended

Provide an experienced and collaborative front-end development team

WHAT YOU GET

High quality front-end code that helps to:

- ✓ Encourage more effective and relevant decision making in the back end coding phase
- ✓ Focus your development efforts on what you do
- ✓ We work in HTML, CSS (Plain, Sass), Bootstrap, jQuery, JavaScript, Angular, Angular-Ionic, React, ASP.NET, WPF, C#, CMS: WordPress, Umbraco, Drupal, ask us!

Front End UX Development

HOW WE DO IT

- 1 We review the UI UX design and set-up of code environment.
- 2 Next, we architect and develop the UI UX front-end code to specification.

- 3 Regular reviews and check-ins with the design team are done to remain true to the design intent.
- 4 We ensure QA is performed, and provide verification and documentation of the code on all relevant devices and resolutions.

About Akendi

Akendi is a human experience design firm with 16+ years of successful collaborations, leveraging equal parts research-led analysis and inspired creative design. Our multi-disciplinary team of 15+ specialists help your organisation to deliver exceptional experiences and provide strategic insights to put you a step ahead of the competition.

Our Services

We ideate, strategize, research, design, test and construct all aspects of the customer and user experience, ensuring intentional experiences that meet citizen, customer and user needs. Every time.
