

AD-106

1-Day
COURSE

SERVICE DESIGN

Having a good product is not enough to be successful. Learn how to design service experiences that optimize engagement at each touchpoint. Map your internal processes alongside the external experience to optimize service delivery for your audience.

WHAT YOU WILL LEARN

- > What service design is and how it relates to experience design
- > Principles, tools, and methods for service research, design, and testing
- > Approach to designing for a multichannel service delivery
- > Techniques to uncover the service areas where opportunities exist
- > How to build lifecycle thinking into the service design processes of your organization
- > Hands-on experience utilizing service design principles

WHO SHOULD ATTEND?

This course requires limited prior UX knowledge. Recommended for business analysts, graphic designers, interaction designers, UI/UX designers, product designers and anyone looking to expand or update their skills.

COURSE OUTLINE

(This course is 60% theory, 40% practical)

INTRODUCTION

- > Understanding services
- > How companies benefit from a service-derived business model
- > Principles of service design
- > Service vs. other types of experience design
- > Service experience characteristics

ELEMENTS OF THE SERVICE EXPERIENCE

- > The front stage of the service experience
- > Personas, scenarios, journeys and lifecycle
- > Experience points and connectors
- > The backstage of the service experience
- > Ecosystems of services

SERVICE DESIGN PROCESS

- > The people, teams and skills needed for service design
- > Innovation and strategy for services
- > Service research techniques and artifacts
- > Service design
- > Service blueprinting
- > Service testing and delivery

SERVICE DESIGN IN THE ORGANIZATION

- > The business impact
- > Service design application in roadmaps
- > How to align and integrate the organization through service design

CERTIFICATION

Service Design is a course within the following certification stream if finished within two years of the initial course:

Obtain a clear understanding of the value of service design, and the activities and tools used to create innovative, end-to-end multichannel service experiences.
